M.I.M.S. Approval Application

Note: Group level approval has been added to the approval process for all initial qualifications of ES specialties. This will only affect wings that contain groups. For all wings that contain groups, the approval process will be Unit, then Group, then Wing on initial qualifications ONLY. The process will remain the same for the renewal of a specialty. Wing level approvers, please be aware that initial qualifications of ES specialties must first be approved at the Group level before it will show up for approval in your wing queue.

Approval Status Report   **ES Achievement Cancellation Report**

There are no records to show for your request.

Approval Status report
 At the group level, can see units below

Note: The "Status" column in this report indicates whether the specialty listed has been 'Approved' or is 'Waiting' approval. If the member listed is a member of a group, then when a specialty for that member is approved at the unit level, the "Status" will then go to 'Approved' under the unit section and a record will appear under the group section as 'Waiting' approval. Once the specialty has been approved at group level, a record will appear under the wing section as 'Waiting' approval. When all three levels have been approved, all records for that specialty will disappear from this report and show as 'Active' in the M.I.M.S. system.
